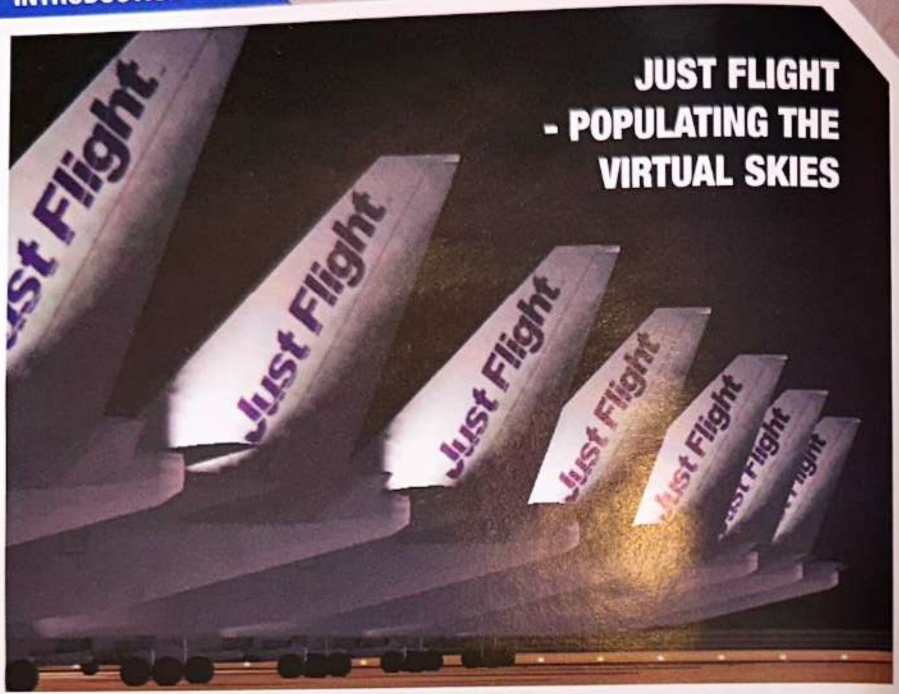
The Spirit of Flight Simulation

Just Flight



JUST FLIGHT - POPULATING THE VIRTUAL SKIES

Welcome to Just Flight's wonderful world of flight simulation. Whether you're a regular Just Flight customer or a newcomer to our great product range, we're sure to have something that will get you virtually airborne.

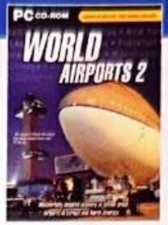
For over seven years Just Flight has been producing best-selling expansions for the Microsoft Flight Simulator and Combat Flight Simulator series and, more recently, add-ons for Ubi Soft's IL-2 Sturmovik. We also publish our own standalone simulators and training packages.

Everything we do conforms to our very exacting quality standards and this extends to every aspect of our operation. From our online ordering process, to customer service and our after-sales support system, we aim to provide our customers with the kind of service we'd expect ourselves. And we aim as high as we fly!

Whether you enjoy flying graceful airliners with authentic flight models and avionics, piloting a light aircraft over the most authentic scenery there is, or engaging in air combat with the widest possible range of planes, then Just Flight is where your simulated journey starts and ends.

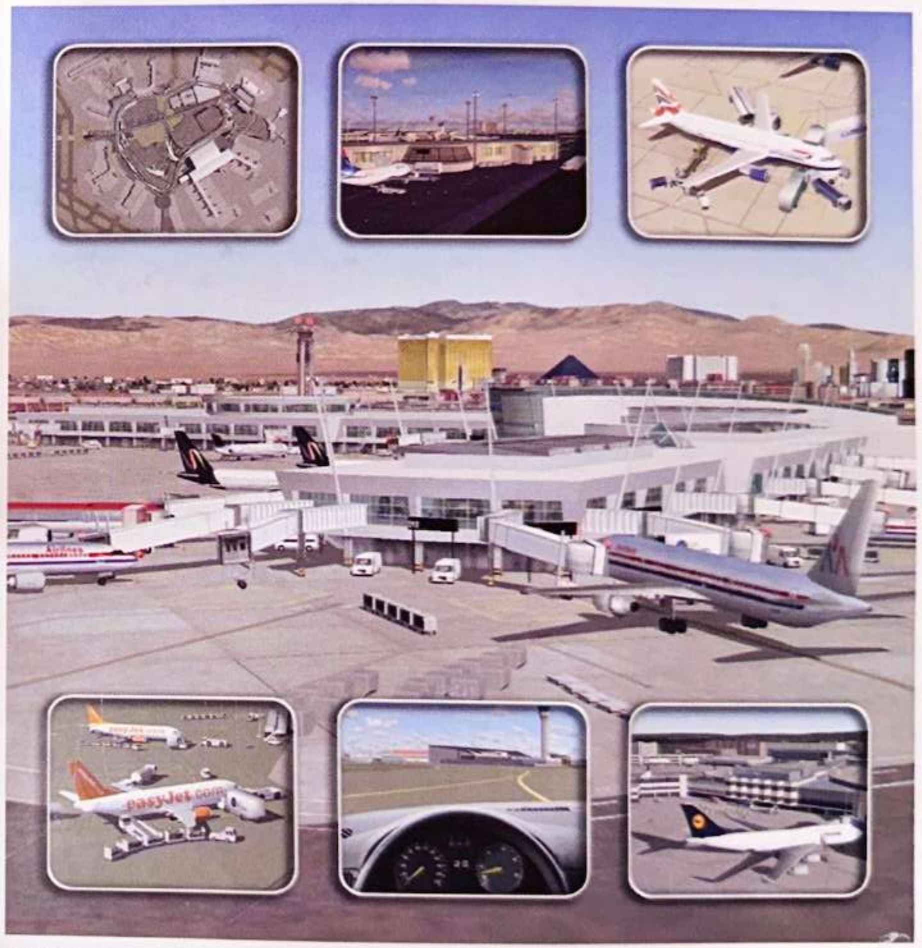
We've only got room in our brochures to include the very latest releases from our vast hangar, so do make sure you take a trip to our website at www.justflight.com. While you're there you can sign up for our Just Rewards discount scheme. There's no obligation to buy and we'll give you 500 Just Rewards points when you sign up, which you can exchange for a £5.00 discount against any purchases from our website. Whenever you make an online purchase from www.justflight.com you'll get more Just Rewards and you can also opt to receive regular post and e-mail updates about Just Flight's latest releases.

The
Just Flight
team



WORLD AIRPORTS 2

The SimFlyers development team are rightly acknowledged as experts when it comes to airport scenery and their latest outstanding collection brings together 11 terrific airports from Europe and North America for Flight Simulator 2004/2002. Each one has been carefully modelled after thousands of hours of research and development to bring these airports to life with a wealth of detail.



INCLUDES 11 EXCITING AIRPORTS:
London Luton - New York JFK - Toronto - Frankfurt - Chicago O'Hare - Washington Dulles - Las Vegas - Houston Intercontinental - Dallas Fort Worth - Rome – Manchester

- Active jetways at many gates dock exactly against your aircraft's forward door
- Realistic buildings and objects with full texturing
- Includes a bonus version of Milan Airport
- On the ground you're in the capable hands of SimFlyers trademark jetDock and serviceArmada systems that will get you turned around and you can even watch the action from the unique 'Follow-Me' car

"An airport in Flight Simulator has never looked more real."
FS Nordic

"SimFlyers Dallas has raised the bar another notch on the scenery standard"
www.avsim.com

A340 PROFESSIONAL

The Airbus A330 and A340 are spearheading Europe's domination of the airline market and now these two high-tech heroes are brought to life by the experts in high-quality flight simulation aircraft, Phoenix Simulations.

The twin-engined A330 and four-engined A340 are painstakingly reproduced for Flight Simulator 2004/2002 to an astounding level of detail, with accurate animations of the flight surfaces, engines, undercarriage, and passenger and cargo doors – even special light and engine effects are included. There's no doubt that when it comes to the new generation of airliners that can think for themselves, Europe is the place that sets the pace!

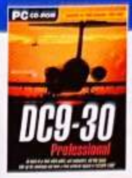
- Eight highly detailed variants of the A340 and A330 with 42 liveries are included in this fantastic package.
- Fully featured Airbus panel with expandable/undockable PFD, ND and ECAM plus panel configuration utility.
- Four different, authentic Airbus flight models, fully tested by qualified Airbus pilots. These aircraft react as closely to their real world counterparts as Flight Simulator will allow!
- The aircraft come with a full compliment moving parts, including hanging undercarriage bogies, functioning passenger and cargo doors, working windscreen wipers in 2D and virtual cockpits, animated 3D engine fans and reversers, flexing wings – the list goes on…

"Beautiful aircraft – the gmax models are fantastic!"
★★★★★ *www.asvim.com*

"The aircraft model and panel are second to none"
★★★★★ PC PILOT

MICROSOFT FS2004 / FS2002

DC9-30 PROFESSIONAL



The DC9-30 takes flight simulator pilots back to a time when cockpits were still full of dials and gauges and there wasn't a computer screen in sight. Even today it continues to ply the airways of the globe and now this flying legend is beautifully reproduced by Flight One and fully updated to work in both Flight Simulator 2004 and 2002.

- Correct analogue gauges that work as well as they look and cockpit panels that are accurate right down to working circuit-breakers.
- High-resolution pop-ups of primary flight instruments and engine readouts that will keep virtual pilots flying by the seats of their pants!
- Accurate exterior detail includes reverser buckets on the engines, folding doors and even the correct steps!

"Excellent attention to detail..."
Tecpilot.com

"A superbly constructed aircraft which is hugely enjoyable to fly."
★★★★★ PC PILOT

"A well balanced sim."
Flightsim.com

MICROSOFT FS2004 / FS2002

DASH 8-300 PROFESSIONAL

The Dash 8-300 is one of the most popular short-haul aircraft available and this superbly modelled version from acclaimed aircraft developers PSS comes in two versions with a total of 17 different liveries. The package also includes scenery for three European airports (plus a bonus airport for FS2002 users), tutorials and utilities together in one fantastic package.

- Cockpit detail includes working weather radar, TCAS system, autopilot, programmable flight management computer, moving controls and authentic night lighting.
- Comes with custom-designed airport scenery for London City, Milan and Frankfurt Main, plus a bonus version of Schipol Airport for FS2002
- Features a set of utilities that allow you to make adjustments to the aircraft.

Simply marvellous... detail is excellent... exterior is fantastic..."
★★★★★ *www.avsim.com*

"A fantastic aircraft model and marvellous flight dynamics..."
★★★★★ PC PILOT

MICROSOFT FS2004 / FS2002

727 PROFESSIONAL

The 727 has been a firm favourite with airlines throughout the world ever since its maiden flight in 1963. Now the acclaimed development team at Captain Sim have brought this aviation legend to Flight Simulator 2004/2002 at an unsurpassed level of detail and authenticity. This is a fantastic opportunity to fly a very classy classic.

- Amazing detail includes animated rudder, stabiliser, spoilers, ailerons, flaps, slats, landing gear and doors. You'll also find rotating engine fans and windshield wipers as well as [illegible] under-tail steps and sliding pilot [illegible] windows – a first for Flight Simulator!
- The 727 comes with a fully functional fuel dump system and authentic 727 JT8D-9A engines and cockpit sounds, plus many more great features
- Four variants of the legendary 727 [illegible] 727-100 [illegible] Cargo [illegible] Cargo.
- This [illegible] for the 727-200

"A quality product in every respect"
PC PILOT

"...[illegible] aircraft add-on for [illegible] that I have seen so far!"
★★★★★ www.avsim.com

737 NEXT GENERATION

Boeing's New Generation glass cockpit 737-600 and 737-700 can now be flown in Flight Simulator 2004/2002. The 737 NG includes a full avionics suite, mechanical and automation systems derived from the 737-600/700 production aircraft. You can perform realistic airliner operations and enjoy the beauty of a modern airliner. There's even a virtual cabin so that the pilots can become virtual passengers.

- Accurately scaled and shaped Boeing 737 version 600 and 700 with Gmax exterior models in 17 liveries with more available for free download.
- Four different main panel perspectives.
- Authentic glass cockpit displays and complete FMC and EFIS controls
- Virtual cockpit and cabin and optional multiple 2D cockpit views
- Accurate B737 NG flight model performing to manufacturer's specifications

"It has all the makings of a classic."

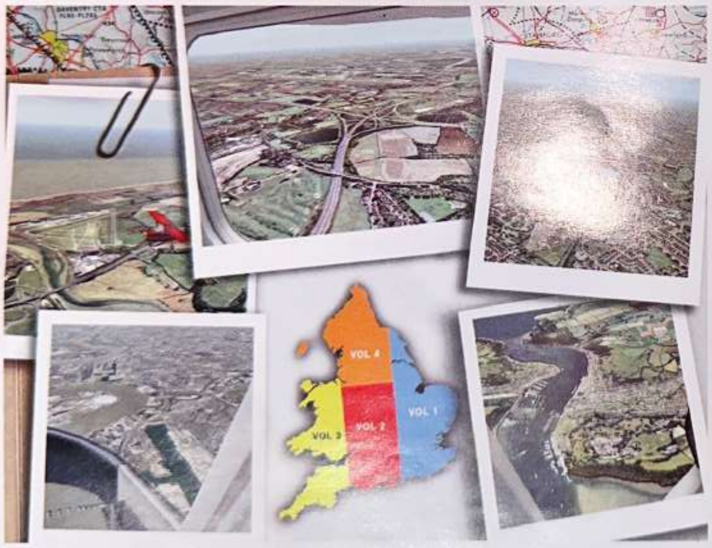
VFR PHOTOGRAPHIC SCENERY

True VFR flying over England and Wales on your PC is now possible with photographic scenery based on Getmapping PLC's aerial Millennium Map™.

This is without doubt the most remarkable scenery upgrade that virtual pilots have ever seen and it transforms the very nature of flight in Flight Simulator 2004/2002.

You can now experience scenery in a way you've never seen before. 'VFR' add-ons have made this boast in the past, but nothing comes even remotely close to this amazing software. VFR Photographic Scenery shows every detail including roads, fields, towns, villages, hills, valleys and airport approaches exactly as you would see them from a real aircraft.



- Each volume contains at least 1.6 Gb of data on three CD-ROMs. Volume 1 covers Eastern England, Volume 2 is Central & Southern England, Volume 3 is Wales and South-West England and Volume 4 is Northern England.
- Fly over your street, school, local football ground or any other visible landmarks.
- If it was visible when the photograph was taken, then you'll see it in Flight Simulator. [illegible]

MICROSOFT FS2004 / FS2002

BRITISH AIRPORTS - VOL 1, 2, 3 & 4

The perfect companion for the VFR Scenery series is this huge collection of airports for Flight Simulator 2004/2002 from acclaimed scenery designer, Gary Summons. The first four volumes in the series cover South-East England, Eastern England, South-West England and Central England.

"We're not really sure how they manage to maintain such high frame rates with this level of detail, but we're certainly not going to complain about the result!"
★★★★★ PC Pilot

"Screen shots hardly begin to show the realism of Just Flight's re-creation of airports."
Pilot Magazine

"Exceptional attention to detail... this scenery is certainly worth purchasing."
★★★★★ Avsim.com

BRITISH AIRPORTS - VOL 5

The British Airport series is the one that breaks the mould! From the smallest to the largest, Britain's airports are modelled with a care and attention to detail that's second to none. Features include interactive docking systems at busy international terminals, cars parked beside grass strips and all the airports in their correct geographical locations.

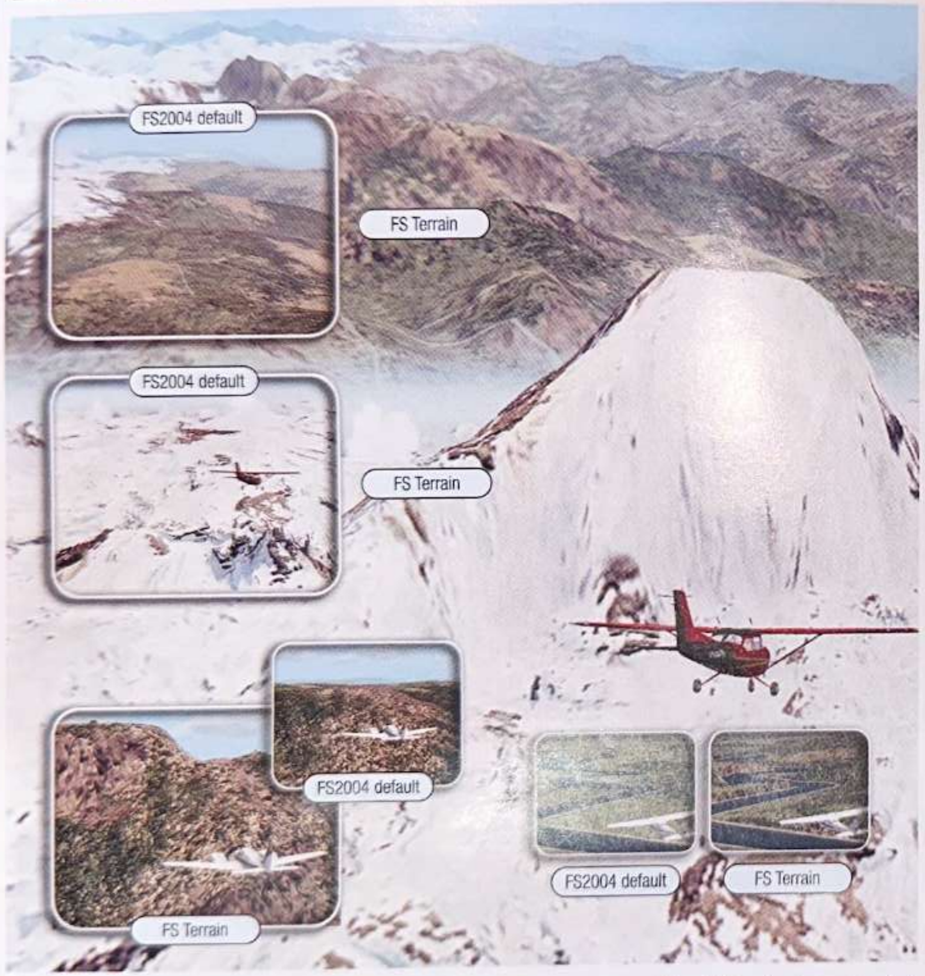
these airports are included in Volume 5 – Wales & West Midlands

Aberporth - Ashcroft - Badminton - Barton - Caernarfon - Cardiff - RAF Cosford - Croft Farm - Derby - Gloucestershire - erfordwest - Hawarden - Ledbury - Liverpool - Little Rissington - Llanbedr (DERA) - Long Marston - Manchester - Mona - Otherton - Pembrey - Rednal - Rendcombe - RAF Shawbury - Shobdon - Sleap - St. Athan (DERA) - Swansea - nhill - RAF Ternhill - RAF Valley - Welshpool - Wolverhampton - Woodford

MICROSOFT FS2004 / FS2002

FS TERRAIN

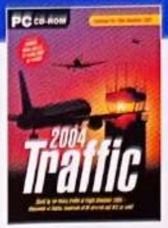
The default scenery in Flight Simulator looks gorgeous but because its reference points across the Earth's surface are usually a whopping 1.22km apart, the topography is only an approximation of real life. Now there's an answer to this problem in the shape of FS Terrain, which uses accurate data to dramatically transform topography.



- Four CDs provide a huge amount of data to place the reference points in Flight Simulator between 76 and 38 metres apart to give you 16 times more detail than most parts of the default scenery.
- Featureless areas are transformed; mountains soar and valleys plunge. You can really see the difference!
- High mountains and undulating areas show their true shape when you apply the FS Terrain effect.
- FS Terrain covers virtually all of Europe, plus the USA including Alaska and Hawaii.

"The utilities allowing you to adjust terrain resolution area by area give this add-on a significant edge."
PC PILOT

MICROSOFT FS2004 / FS2002



TRAFFIC 2004

Building on the formidable heritage of FS Traffic and FS Traffic 2002, comes the ultimate enhancement for FS2004, providing AI (artificial intelligence) traffic of real-world airliners and general aviation aircraft, as well as a custom voice pack of additional pilot and ATC voices. Your simulated airports will be nearly as busy as the real ones!

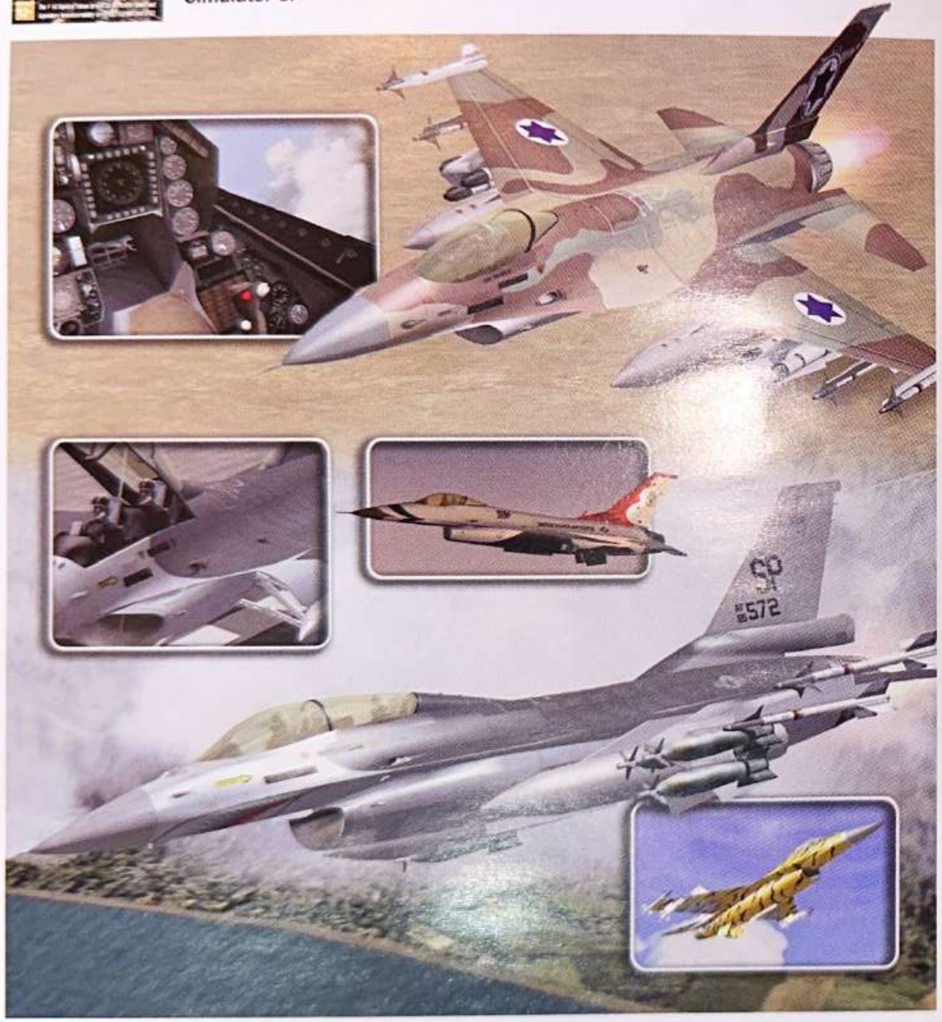
- Traffic 2004 comes with custom tools to adjust and expand the program and it's even got its own website at www.traffic-2004.com
- Included with Traffic 2004 is a bonus copy of FS Traffic 2002. You'll find this is the perfect way to make FS2002 as busy as it gets!
- You want traffic? How about 170,000+ scheduled airline flights, including international, national, regional, commuter and cargo operators as well as general aviation and business flights? There are more than 100 airlines with over 30 different aircraft types.
- Traffic 2004 also includes 35 new high-quality AI aircraft modelled in gmax modelled to ensure quality and frame-rate-friendliness. They can even be flown using default panels!

"Has this program improved the quality of the simming experience? Yes it has!"
www.flightsim.com

MICROSOFT FS2004

FS FALCON 2004

The F-16 Fighting Falcon is revered by the pilots who fly it and feared by those who dare to oppose it in the air. Now you can put this beautifully detailed model of the amazing F-16 through its paces in Flight Simulator 2004/2002 or take on the enemy in the bonus version for Combat Flight Simulator 3.



- The eight 2D panels, which can be switched at a keystroke or through clickable icons, provide a totally realistic cockpit environment. Every switch and button is modelled and with the included HUD, MFD and air radar you can even practice intercepts of wayward airliners in FS2004!
- The animation and attention to detail is truly breathtaking – from pilots that can take off their helmets to nose wheel lights that follows the steering direction. The Falcon is state-of-the-art fighter and it demands a state-of-the-art sim. This is it!
- You can even practice in-flight refuelling. Beware though - it's not as easy as the pros make it look!

"...it truly is 'as real as it gets.' You will love this add-on."
★★★★★ www.avsim.com

MICROSOFT FS2004 / FS2002 / CFS3

RAF TORNADO

The Panavia Tornado, a multi-role combat aircraft like no other, was the product of a unique European collaboration. Similarly, its virtual counterpart is a joint venture between celebrated Italian developers Lago, Just Flight and the Royal Air Force. The result is a brilliantly detailed aircraft for Flight Simulator 2004/2002 and CFS3.

- RAF Tornado comes in 16 different liveries, including five famous RAF squadrons, Luftwaffe, Italian and Saudi air force colours. Its beauty is more than skin deep, and the other great features will raise a storm of excitement with every fast jet fan!
- Take the Tornado up in Flight Simulator 2004/2002 and try out the terrain-hugging radar, use the ground proximity warning system, or test your flying skills behind the VC-10 and KC-10 with the in-flight refuelling feature – a first for Flight Simulator!
- Realistic animations include cockpit canopy, pilots' heads, control surfaces, thrust reverser, refuelling probe and even the Tornado's famous swing-wing system.

"A fine product and a must for every simmer's aircraft library."
★★★★★ www.avsim.com

"A blast to fly!"
PC PILOT

"I can honestly rate this aircraft 9 out of 10"
www.flightsims.co.uk

MICROSOFT FS2004 / FS2002 / CFS3

BATTLE OF BRITAIN

The summer of 1940 marked Britain's darkest hour. Alone and apparently defenceless, Britain awaited the onslaught from the Luftwaffe. But, Hitler and his generals hadn't reckoned with the skill and courage of the RAF and for a few desperate weeks they held back the German air armada. Now they've scrambled again in CFS3 – Tally Ho!

- Oozing authenticity and fully licensed by the RAF, Battle of Britain has transformed CFS3 into the simulator that virtual pilots have always [illegible] Flight's attention to [illegible] partnered with [illegible] Aeroplane [illegible] design skills to create something really special at angels one-five!
- Includes 40 authentic missions (20 RAF and 20 Luftwaffe) that re-create events on noteworthy days throughout the battle, even down to the correct weather and time. There are scenery improvements and a full suite of special effects is included, featuring searchlights, audible air raid sirens, bomb flares, smoke effects, realistic tracer fire, AI aircraft involvement and more!

"It is hard not to recommend this title."
Aircraft Illustrated

BATTLE OVER EUROPE

IL-2 Sturmovik – Forgotten Battles has been hailed as the most realistic aerial combat simulation ever produced for a home PC. Just Flight's Battle Over Europe expansion moves the action to the West, with updated campaign engine and greatly enhanced mission briefings written by the original developers of Forgotten Battles.

- Round-the-clock bombing and the D-Day invasion means that the second front is open. The Luftwaffe is defending Germany with everything they've got, and now you can choose your side and follow this bitter battle from June 1944 to May 1945.
- Every new mission is based on 61 mission types and there are thousands of possible targets for each of the 12 campaigns – there are potentially over three million unique missions!
- As well as dozens of new ground objects there are 93 new skins for 20 aircraft types and missions utilise many of the new AI aircraft in Forgotten Battles, including the B-17G and P-51D.
- Enlist in dozens of historical squadrons and choose between several historical planes for each campaign.

"A good looking release…"

HOW TO ORDER FROM JUST FLIGHT

We aim to despatch all orders within 24 hours of receipt, though this may not always be possible. We will tell you if there is any significant delay. Please allow up to 14 days to receive your goods.

Orders to the UK and USA are sent by first class post free of charge. Orders to EU addresses are charged at £3 per order (irrespective of the amount ordered), unless otherwise indicated and other countries are £5 per order.

We accept Visa, Mastercard, Delta, Switch and JCB cards, or cheques in £ Sterling, drawn on a UK bank account. Please do not send us cash unless sent by registered post.

WEB - www.justflight.com

Our web site provides secure online ordering and our service is carried out to ISO9001:2000 quality standards.

This is the most convenient way of placing an order, any time of day or night, any day of the year. Plus, of course you'll find stacks of screen shots and more details on all of our products. You can now order in £, € or $, so the price you see is the price you pay!

PHONE - 01480 462748

Please call us between 10am-5pm (UK time), Monday to Friday and one of our friendly staff will be pleased to take your call. Make sure you have your payment and order details to hand! If you're calling from overseas, please remember the time difference and dial +44 1480 462748.

FAX - 01480 463070

If you're paying by credit card you can fax your order to us at the number above. Please be sure to include all your details and include a clearly marked e-mail address or daytime telephone number in case any part of the fax is illegible. If sending a fax from overseas then please dial +44 1480 463070.

POST

Please clearly mark what items you wish to order and enclose your credit card number, expiry date (and issue number or valid from date if Switch). Or you can enclose a cheque payable to 'Just Flight'. Don't forget to include your home address and a daytime telephone number, just in case there is a query! Orders can be posted to:

Just Flight Ltd., PO Box 11, St. Ives, Cambridgeshire PE27 3GW UK

Just Rewards

Just Rewards is a fantastic discount scheme for regular customers. Each time you buy a Just Flight product from our website you'll earn a number of Just Rewards that can be redeemed (immediately if you want) on other products you buy online from us. You can store your Just Rewards in your account and use them when buying from www.justflight.com whenever you want.

- Instant discounts - all of our products carry Just Rewards which means immediate discounts as soon as you purchase your goods.
- Securely store your Just Rewards in your account and save them up for that very special future purchase
- Exclusive use of Just Rewards - only Just Flight account holders can collect and use Just Rewards
- ... registered you can choose to stay updated with the latest information from Just Flight.

... an equivalent redemption value of 1 pence Sterling (£0.01) or $0.015 (1.5 cents USD) and ... and are able to be used without restriction only on products sold through our website. ... value elsewhere, whether that be on other websites or through traditional retailers.

... GUARANTEE

...antee means that if you are not totally ... your purchase to us for exchange ... before sending goods back for ... advantage of this.
